The Question is Often Asked Why the The New York Racket

Has such a lively trade, while it appears dull in many places?

That question is easily answered, they buy their shoes from one of the most reliable cash shoe factories in St. Louis, raying cash for them, thereby getting their stock at the lowest price. Then selling for cash, they have no allowance to make for bad accounts. That explains why they sell shoes cheap. In other lines, such as Hats, White Shirts, Black Sateen, and light Dress Shirts, Pants, Overalls, Underwear of all kinds for ladies, and gents Hosiery, Laces, Embroideries, Lace Curtains, Ribbons, Gloves, Mitts, Table Linen, Linen Tablecloths, Napkins, Crash, Hammocks, Brushes and notions of all kinds which are all bought for cash in New York, and following that line, (cash) from factory to consumer, they can afford to sell at low prices. They ask an examination of their stock and prices.

THE SILVER CRISIS.

Wall Street Situation Complicated.

SILVER ISSUES FLAT IN LONDON.

Silver Dollars Decline to 58 3/4 Cents.

SENATOR DOLPH INTERVIEWED.

Repeal of the Sherman Law Would Be Disastrous.

The Silver Crisis.
LONDON, June 27.—Stocks closed irregular. All silver issues flat. Silver question unsettles business and caused bear selling. Correspondence between government of India and Indian office which led up to suspension of free coinage of silver by Indian mints is made public. Council in letter written in June advises if international monetary conference at Brussels fails and direct agreement between India and United States cannot be attained, mints of India be closed to free coinage of silver and gold standard be introduced. Barbour, financial secretary of India, opposed stoppage of free coinage, until it becomes evident the United States will not adopt free coinage.

In New York.
NEW YORK, June 27.—The situation in Wall Street is further complicated by latest developments in silver. This started a renewed liquidation yesterday. The great majority of Wall Street people are anti-silverites. Their interest lies in repealing the Sherman law. Conservative houses are doing everything in their power to limit trading for reason that leading firms do not care to charge clients more than legal rate of interest. After reviewing the situation Wall Street is content to go slow until congress shows the way in the silver matter, and the money market returns to something like a normal condition.

At Washington.
WASHINGTON, June 27.—One effect of action of government of India has been to renew demand for early session of congress. Secretary Carlisle received cablegram from London announcing further decline in price of silver to 58 d. At this price silver dollars are worth 58 3/4 cents.

DOLPH INTERVIEWED.
Senator Dolph, of Oregon, said Pacific slope senator in the city said this morning: "I am in favor of maintaining all currency on a par with gold, but it seems to me this action of the Indian government will diminish instead of increase the prospect of passing the repeal of the Sherman law by the senate. I think the effect will be to make thoughtful members of congress hesitate before they further depreciate the value of silver by suddenly throwing upon the market of the world four million five hundred thousand ounces of silver, equivalent to nearly the whole American product now purchased and in stock by the government. I do not know that anything better than to repeal the Sherman act can be done to relieve the situation, but I am fearful repeal of that act would be disastrous to finances of the government and silver."

The senator further desired to correct a published statement that he would not be present at a special session of congress. He probably will be a better supporter of Cleveland's financial measures than a majority of Democratic senators.

President and Cabinet.
WASHINGTON, June 27.—Two hours were consumed by the president and his cabinet today discussing the new phase of the silver question. Although the discussion it is said took a wide range, it was necessarily brought back to one important, unmanageable point, that the executive had no power in the premises, congress alone being able to deal with measures for relief.

As the president has decided to call congress together in the early part of September the project of an earlier session of congress, it is understood, is dropped. So far as continuance of purchases of silver and the Sherman law are concerned, it was pointed out that little more than two months remained before congress

would convene in extra session, and during the intervening time silver lots purchased would be comparatively small in amount in view of previous purchases.

Banks Resuming.
LOS ANGELES, Cal., June 27.—The Broadway bank opened its doors this morning. The University, First National and Southern California National will be opened in a few days. Confidence is restored and business picking up.

SUSPENSION OF COINAGE

Of Silver in the Indian Mints—How it is Considered.

WASHINGTON, June 27.—The president, Secretary Carlisle and financial officers of the government generally, received their first authentic news of the startling action of the government of India in suspending silver coinage through press dispatches. Carlisle immediately went to the White House and for nearly two hours discussed the bearings of the action with the president. The conference was renewed at the president's suburban retreat later in the evening and protracted far into the night.

Circumstances are regarded as too serious to permit of any authentic expression of opinion as to the future policy of the United States until all the facts are fully digested. This much, however, can be stated with absolute confidence; that the action of the Indian government is regarded by the United States as doing away with the necessity of reconvening the international money conference, which was to meet again in Brussels this fall. It is not believed that this action was taken without express orders from the British government, which has general supervision and control over Indian affairs.

The market price of silver today reached the lowest point in the history of that product. On Saturday the London price, which guides the director of the mint in purchases for the government was 37 1/2 pence or about 81.8 cents in this country. This morning the price in London was 36 pence or about 78.8 cents in New York. The cause of the depression is assigned by Mr. Preston, the acting director of the mint, as due to the rumor, which is probably true, that India, one of the largest silver consuming countries in the world, is about to close its mints against the white metal.

Cowboy Race Over.
CHICAGO, Ill., June 27.—The cowboy race was ended today, the first man in was John Berry, riding under protest of other contestants. Emmett Albright followed two hours later.

Gillespie has arrived. He is said to be the real winner, having complied with all conditions.

A High Honor.
BOSTON, June 27.—General Nelson A. Miles was elected president of the Society of the Army of the Potomac.

No Market for Iron or Labor.
ISHPEMING, Mich., June 27.—Three thousand iron ore miners have been discharged in this district in the last thirty days, and 100 more will be laid off Friday, there being no market for the ore already mined.

Hops and Crops.

At Salem nothing has been done, buyers advising sellers to warehouse until money is easier.
St. Louis quotations: Prime New York at 23@24; Pacific Coast at 22@23; foreign at 48@50c.

Special from Lane County.
EUGENE, June 27.—The condition in regard to the coming crop remains the same. Lice show up in nearly all the yards. Spraying has commenced in the Nels yards, they are using the Puyallup Roller sprayer and speak highly of its work. Some yards lack growth of vine and unless the weather changes for the better there will undoubtedly become short crops again this season. The market is quiet, no transactions of late. The growers that are holding their '92s are firm in their belief that prices will advance before the new crop comes on.

Geary Law.
PHILADELPHIA, June 27.—Six Chinamen were arraigned today, charged with being in the country in violation of the Geary exclusion act of 1892.

IMPORTANT PORTLAND NEWS.

Union Pacific Fast Mail Train Wrecked.

MIRACULOUS ESCAPE OF PASSENGERS

Koshland, the Pioneer Wool Merchant, Discharged.

U. P. Train Wreck.

PORTLAND, June 27.—The Union Pacific fast mail train was wrecked this morning about six miles from this city. One passenger, C. C. Chase, was killed, and two others injured. When coming out of a cut and rounding a curve at a high rate of speed the train collided with a cow. The entire train, with the exception of the rear sleeper was thrown from the track. Cars were piled up and thrown about in such a manner that to have escaped with loss of only one life seems miraculous. The dead man was identified by letters found upon him. He boarded the train at Pendleton. The engineer and fireman were thrown through the cab window and alighted on the locomotive unhurt.

All passengers were brought to the city by relief train. It is now stated no one is seriously hurt. Chase, the man killed, is supposed to be a tramp.

Koshland Discharged.
PORTLAND, June 27.—The case of M. Koshland, the pioneer wool merchant, under indictment for issuing fraudulent warehouse receipt, was brought to an end today by being thrown out of court on ground of indictment being defective.

A GREAT LINE.—We have just received the second letter, written by E. M. Waite from Chicago, but as he has now returned, it seems out of place to publish it. It is dated June 6th. Where it has been delayed we cannot tell, but the following in regard to the Union Pacific railroad will bear publication: I cannot too strongly recommend the Union Pacific to persons going East from Oregon. Since I came over the road some seven years ago great changes have taken place, not only in the care and attention paid to the passengers over the line, but in its fine equipment and gentlemanly and obliging officers. Where but a few years ago was bleak and barren prairie, thriving towns have sprung up, many branches have been built, largely increasing the traffic of this road. From the foot of the Rocky mountains on the east to Chicago the line runs through a beautiful country, at this time looking like one vast garden, the whole landscape being one of interest and pleasure to the eye. I shall return over the same line, and I think on the "Overland Flyer," which makes the distance from Portland to Chicago in 34 days. This train is composed of Pullman and Wagner cars exclusively, to which is added of course a luxurious dining car, baggage and express car. To think that this vast extent of country can be covered in so short a space of time, and that too, amid not only comfort but luxury, speak volumes for the enterprise and excellent management of this popular line."

Love and Business.
"Miss Florry," said the traveler, leaning over the counter in the shop, where his samples were spread out for display, and speaking to the fair girl behind it in low, eager, passionate tones, "now that old Hanks has gone to the front to wait on a customer I may tell you how I have looked forward for the last 80 days to the time when I should have the happiness of seeing you again and hearing from your own dear lips that you have not forgotten me, may I not? While I have been on my dreary rounds from town to town or passing the leaden hours in waiting for trains at little railway stations the thought of your lovely face has thrilled me to the heart's core. You have been to me the beacon light of hope, the inspiration of every-striped goods like these, Miss Baxter, are worth 21 shillings a dozen. I can't make them a penny less." he said in a hard, businesslike tone.
Old Hanks had returned to the back part of the shop.—Tit-Bits.

BIG HOTEL FALLS.

Four Story Brick With One Hundred Occupants.

FORT SCOTT, Kansas, June 26.—The Tremont hotel collapsed at halfpast nine o'clock this morning without warning with 100 occupants in it. It is believed 5 or 6 are buried in the debris. The entire east wall fell, followed by three floors and lower occupants. Danger of other parts of the building falling prevents a thorough search for bodies in the ruins. There were 27 occupants taken from the second story on west side by means of ladders and others escaped through regular exits. Enale Colwell and Ida Morgan, just taken from the wreck, are badly hurt but not fatally. The mechanics are at work strengthening the walls so search can be made. It is believed the accident was caused by addition of a mansard roof which was too heavy for the foundations.

A QUARRELING BISHOP.

Monsignore Satelli Brings Him to Task.

OMAHA, Neb., June 26.—The stipulations which Monsignore Satelli compelled Bishop Bonacom to sign bring about only a temporary settlement of the quarrel between the bishop and his priests. The bishop was made to promise that pending the real trial of the long series of charges, which will come before Archbishop Hennessey, of Dubuque, at a date yet to be set, he would treat his priests with respect and would appoint to missions Fathers Crowley, Turgeon, Schrieffe and Conn; that he would restore two Sisters of the Visitation to their order, and cease his threats and annoyance toward the sisters of the monastery at Hastings. The charges on which the bishop will be tried at Dubuque allege tyranny, suspension of priests on frivolous charges, refusing to obey orders from Rome for the restoration of priests, collecting large sums of money which he foolishly expended, extorting money by threats, being guilty of falsehood, saying that six of his priests were notorious criminals, speculating and bad financial management.
